Art Unit 1504

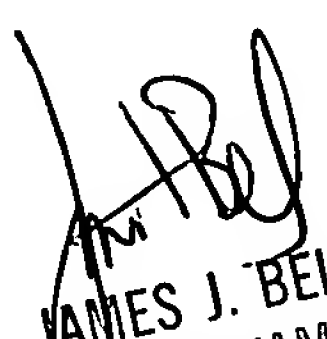

The status of all copending applications, as set forth in the disclosure, would be greatly appreciated.

Claims 1-37 and 46-64 are rejected under 35 USC 103 as unpatentable over WO 90/02540 for reasons of record set forth in Paper #12.

Applicants' arguments have been carefully considered but are not persuasive. It would appear to be obvious to one skilled in the art to employ relatively constant average thickness in all embodiments of the tri-layer laminate of 90/02540 if so desired and in the course of experimentation since Figure 1 of 02540 discloses this concept.

Applicants are advised that an interview would help in expediting this application and are advised to contact the examiner at their convenience.
